

FAMILY LAW

DID YOU KNOW THAT OVER 50% OF ALL RELATIONSHIPS BREAK DOWN?

Unfortunately, most of these relationships involve children.

The end of a relationship or marriage is a difficult time. It's important that you know your rights and how the law operates when it comes to making arrangements for where your children will live and how often they will spend time with the other parent.

Our main focus is to resolve your legal matter without entering the Court system, however, if mediation and negotiations fail to bring about a satisfactory result, our Principal Lawyers are experts in family law advocacy.

“ No one has ever explained it to me like that. I'm so relieved that I'm finally getting some proper answers. ”
- Mrs. C.M

Just as no two people are the same, no two families are the same! Whilst family and friends mean well, it's smarter to get the right advice about your rights and entitlements from the right people.

We understand your situation is unique, and we'll respond appropriately, listening to you and working with you to achieve your best possible outcome.

Getting the right advice is paramount to putting your mind at ease. With Perdriau Family Lawyers, you'll get an honest assessment of your case and advice about your likely outcome.
